

Synergy User's Conference, August 2007

NOTE:

Although you can click on certain file types and open them directly within your web browser, this is not recommended because you will experience slow performance. For PDF, Word (.doc), and Excel (.xls) files, follow these steps to save a document to your local hard drive and view it from there.

- (1) RIGHT-click on the hyperlink below.
- (2) Depending on your web browser, select [Save Target As] or [Save Link As].
- (3) Save the file to your local hard drive - usually your C:\ drive.
- (4) Use Windows Explorer to navigate to the saved file on your hard drive and open it from there.
