Subject: RE: HIPAA Privacy and Security Complaint

Dear Mr. Buhr: Thank you for this and subsequent emails conveying your concerns regarding the security and privacy of electronic health information, and also your paper letter on the same topic. I have forwarded these materials to staff members who are supporting the WIRED for Health Board's Legal and Policy Committee. I know they will find them of value. Thank you again for this information.

Seth Foldy

Re: Copy of HIPAA Privacy and Security Complaint

Dear Dr. Foldy and Mr. Brenton:

I have attached a copy of my HIPAA privacy and security complaint, relating to the Social Assistance Management System (SAMS), that I submitted to the U.S. Office of Civil Rights (OCR) on March 27, 2010.

I am sending a copy to you at this time since it likely will be after the November election before OCR makes a decision on whether to investigate my complaint. I believe the privacy and security concerns that I describe merit attention by the WIRED for Health Board before the term of this administration ends.

Documentation of my efforts, over the past two and one half years, to have the Department of

Health Services (DHS) and Dane County address my concerns can be found on my website at:
<http://www.metasteward.net> .

Sincerely,

Fred Buhr
